Task/Step	Hazard(s)	Controls/Recommendations	Additional Information
<i>Break the job into a sequence of steps. Each of the steps should accompany some major task.</i>	<i>Identify the hazard(s) associated with each step. Every possible source of energy must be identified. Look at the entire environment to determine every conceivable hazard.</i>	<i>Decide what actions are necessary to eliminate, control, or minimize hazards that could lead to accidents, injuries, damage to the environment, or illness.</i>	<i>Put any additional information here that should be known by the employee performing the task.</i>

I have read and understand the contents of the JHA and the controls required to mitigate the risks from the identified hazards.
